

網站資源創作比賽 06/07

組別：初中組（中一至中三）

作者：關寶姿

就讀學校：香港培正中學

題目：《平均值的問題》

獎項：銅獎

評判對作品的評語：

鄭紹遠教授：

Good choice of materials from daily life.

李健賢教授：

The idea of the article is good. Misuse or misinterpretation of statistics need to be pointed out more frequently. Even median is often misused as in JUPAS statistics where same type of programs, but of different sizes, are compared by median without size information!
